World History Mr. Levendusky

Need to make revision... you make the decision!

**Not pleased with your grade? Need to improve it?
Well here is the plan for you.. in 3 EASY steps!**

1. Review the test in its entirety. Look at what you answered incorrectly.
2. Keep your test paper, in order to make revisions you need to have the original test!
3. Read the revision policy below and complete a revision to improve your grade!

The Revision Policy

Everyone has bad days. Maybe the day of the test, it was yours. Or, maybe it was a good day, and you just did not perform well on the test! Nevertheless, you are wondering if there is ANYTHING you can do to improve your grade, and there is! You'll need to do some work to show that you really want, and more importantly *deserve* a grade revision.

So.. here's the deal. *If you complete a revision plan you will be able to receive HALF of the points you lost back.* For example, lets say you received a 60 on the test-- if you complete a successful complete revision plan, you would then wind up with an 80. For each question, lets say worth 2 points, if you revise it you will get 1 point back.

The Task

Look through the test and identify what questions you got incorrect. Your task is to go back into your notes, textbook, etc. to discover:

- *WHY you answered the way you did*
- *WHY your answer was incorrect*
- *WHAT is the correct answer*
- *WHY is that the correct answer*
- *WHERE can that correct answer be found in the book/ notes*

The Format

Example:

- B ~~X~~ (3 points) **Feudalism** was devolved in response to
- anger from the people to their King.
 - a great deal of conflicts, or feuds.
 - harsh working conditions.
 - the basic need of protection.

Question: Feudalism was developed in response to

My answer: B. a great deal of conflicts, or feuds.

My rationale: When I read the question I saw the word feud in choice B, and so I thought that it meant a great deal of conflicts or little problems, as were going on in the Medieval Period

Correct Answer: d. the basic need of protection

Rationale: In the text it states *“people needed protection for themselves, their homes, and their lands. In response to this basic need for protection, a decentralized political and economic structure evolved, known as feudalism.”*

Location: Chapter 7, Section 2: page 219. Paragraph: 2.

Grading

Each question **MUST** be revised in the above format to receive half of the credit back. If it does not contain ALL of the necessary components (done complete, and well), then no points will be given. *You must follow the exact format for each question you are revising!*

Explanation Response

At the very beginning of your revision plan, you will need to explain “what went wrong”. Write a sentence or two explaining:

- why you performed the way you did
- how you did compared to your self score
- what can be done in the future to change this performance (i.e. study more, study differently, etc-- a **strategy** for future tests.

The Product

You **MUST** hand in **your original test paper** and your **completed revision plan**, to receive credit back. Adhere to the guidelines in this sheet closely, and in no time your grade will improve. A bit of reflection and effort is your key to success here!
